

Medical & Health Information Disclaimer

Integrative Medicine Chamber of Commerce (IMCC)

Effective date: August 21, 2026 | Version 1.1

1. Informational Purpose Only

Content provided by the Integrative Medicine Chamber of Commerce (IMCC) through imcc.us, membership services, directories, forums, programs, publications, links, and communications is for general informational, educational, professional, organizational, and advocacy purposes only. It is not individualized medical advice, diagnosis, treatment, prescribing, emergency care, or another clinical service.

2. No Clinician-Patient Relationship

Using the website, reading IMCC content, contacting IMCC, participating in a forum or program, or viewing a member profile does not create a clinician-patient relationship with IMCC or with any person solely because that person is an IMCC member or appears on the website.

3. Consult a Qualified Professional

Health decisions should be made with an appropriately qualified healthcare professional who can evaluate the individual circumstances. Do not delay, disregard, start, stop, or change professional medical care because of information obtained through IMCC.

4. Emergencies

IMCC does not provide emergency medical services and does not monitor website forms, forums, or email as emergency channels. If you believe you may have a medical emergency, call 911 in the United States or contact the appropriate emergency service where you are located.

5. Member Directory

A member-directory listing is supplied by or for the listed member and is provided as a membership and networking feature. A listing is not an IMCC referral, recommendation, endorsement, credentialing decision, verification of qualifications, or guarantee of competence, availability, treatment quality, safety, or outcome. Users are responsible for independently verifying licenses, credentials, experience, disciplinary history, insurance participation, and any other qualification relevant to their decisions.

6. Member-Generated and Third-Party Content

Statements made by members, speakers, sponsors, exhibitors, advertisers, forum participants, authors, or other third parties are their own. IMCC does not adopt or guarantee those statements merely because they appear through an IMCC channel. Professional disagreements and differing interpretations may exist within integrative medicine and related fields.

7. Accuracy and Timeliness

Health, scientific, legal, regulatory, and professional information changes over time. Although IMCC may seek reliable information, it does not guarantee that all content is complete, current, error-free, or appropriate for a particular person, condition, jurisdiction, or purpose.

8. Products, Services, and Commercial Claims

References to a product, therapy, test, supplement, device, service, business, professional, or organization do not constitute approval or endorsement by IMCC unless IMCC expressly states otherwise in writing. Users are responsible for evaluating evidence, risks, benefits, qualifications, conflicts of interest, and legal or regulatory requirements before relying on a claim or making a purchase or health decision.

9. No Guarantee of Results

Individual results vary. IMCC does not guarantee any clinical outcome, cure, prevention result, safety result, professional referral, business result, reimbursement result, or other outcome from website content, membership, directory use, forum participation, events, programs, or third-party services.

10. Geographic and Regulatory Differences

Laws, licensing requirements, standards of care, scope-of-practice rules, product requirements, and the availability or legality of services vary by jurisdiction. Information provided through IMCC should not be assumed to describe the law, professional standard, or available care in every location.

11. Do Not Submit Private Medical Information

Do not submit medical records, diagnoses, treatment details, or other private health information through IMCC's general contact, membership, sponsorship, forum, or other nonclinical website features. IMCC is not a healthcare provider and does not operate those channels for clinical care or patient recordkeeping.

12. External Links

Links to external websites are provided for convenience. IMCC does not control and is not responsible for the content, availability, privacy, security, products, services, or practices of independent third parties.

13. Limitation

To the fullest extent permitted by applicable law, use of health-related information obtained through IMCC is at the user's own discretion and risk. Nothing in this Disclaimer excludes or limits a right or liability that cannot lawfully be excluded or limited.

14. Contact

Questions about this Disclaimer may be directed to IMCC at info@imcc.us or 907-248-0602. Do not use those channels for emergency care or to transmit private medical information.
